

DOORS WITH PHOTOCELL

your door to technology

FOR COMFORT AND SAFETY OF ANYTHING YOU CARE IN YOUR LIFE

We always ask ourselves this question: How can we provide both comfort and safety at the same time? Yes, in fact, comfort and safety are two conflicting words... But we ourselves create miracles with these two words... just with some knowledge, intelligence and ability... which are our key words en route to serve humanity. With these key words, we fit comfort and safety into a frame and here emerges White Rose. We, as White Rose, questioning continuously, have rendered our products suitable for people, not the other way around.

What are their needs, how can we assist them in their daily life? First, we discussed all these questions with our professional team and then we could answer them observing the needs of our people.

Thus, under three titles, we made use of our cutting-edge technology for humans comfort and safety. With our Industrial Automation, Urban Automation and Home Automation products we obtained answers of our questions and so we became an unrivaled company in Turkey, ranking among leading companies in the World. Thanks for deciding to get familiar with advanced technology we offer.

PROFESSIONAL ENVIRONMENTS AESTHETIC PREFERENCE...

WHAT ARE PHOTOCELL DOORS?

They are contactless opening doors which provide a quick and comfortable access upon presence detection, making things easier for people in their intense pace of life. One of the technology products among many others we offer. They can be used in working places, markets, restaurants, hotels, shopping centers and public institutions to provide an easier access. With photoelectric sensors located on top and side positions, they offer both comfort and safety as they open when you approach and stay open if you are in a middle position.

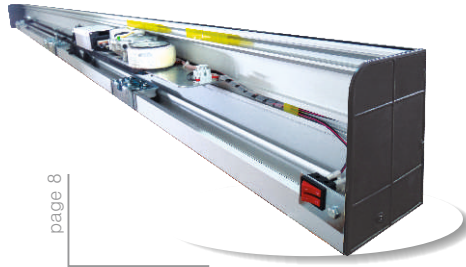

DYNAMICS WHICH KEEP IN PACE WITH YOUR BUSY SCHEDULE...

Photocell Doors never let you down regardless of where they are used. They keep operating uninterruptedly even in the most crowded areas subject to a high entry/exit traffic. With the series eliminating power outage related issues, they are user-friendly in full sense of the word. Thanks to their adaptable structure which consents semi-open use in case of cold or hot weather conditions, they minimize indoor heat losses to keep you in comfort. They are available with various features, e.g. winter mode for cold weathers, external or internal radar deactivation, code panel and proximity card for contactless opening in case radar device is not used. Photocell Doors, which represent the top level of artificial intelligence, never tire you again and again thanks to their microprocessor unit giving a self-learning ability. In addition, they offer the facility to be used as closed only to external entries or closed only to internal exits. They make their convenience felt, being compatible with any kind of access control system as central control and fire safety.

SOMETIMES COMFORT COMES FIRST

What we refer is the real comfort; a comfort which provides contactless opening, heat loss prevention, multi functionality and user-friendly operation.

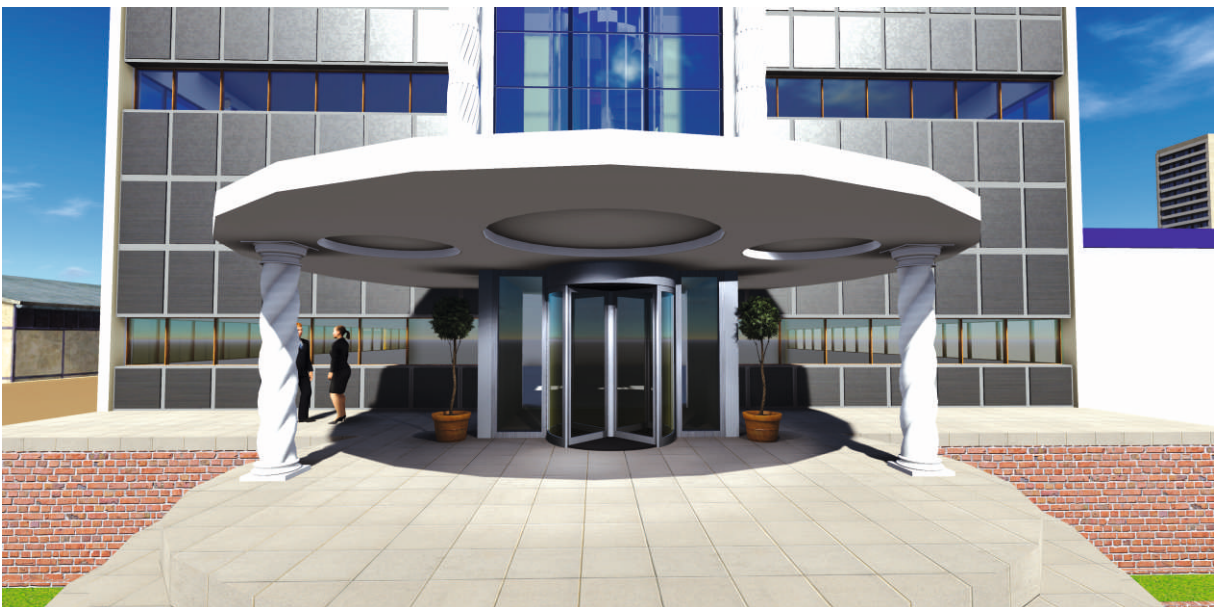

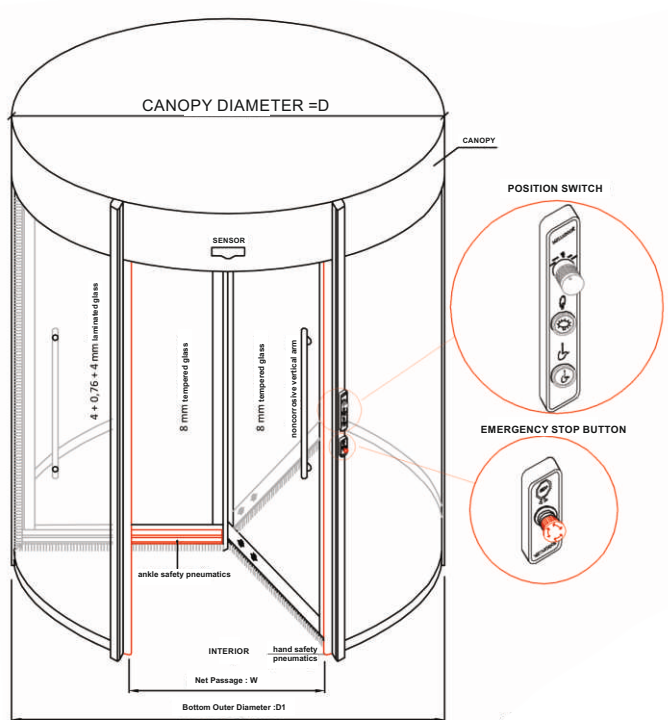

REVOLVING DOOR

comfortable use, safe passage

Revolving Photocell Door, provides a fast circulation in intensive entries and exits, and thus preserves ambient temperature, facilitating also entries and exits. With its jam detection sensor systems, brings human safety in prominence.

product details

Specifications	Standard
Motor	AC 0,25 kw, 1300d/dk, 50-60 Hz
Processor	Siemens
Side fixed and wing joinery	Special designed aluminum
Canopy construction	Special designed aluminum
Canopy height	Stan. 300 mm, special production min:250 mm
Passing height	2100 - 3000 mm
Diameter	2000 - 3600 mm
Number of wing	3 or 4
Glasses for side fixed joinery	4+0,76+4 mm laminated transparent glass
Wing glasses	8 mm tempered transparent glass
Aluminum construction	Natural mat eloxal or standard electrostatic powder coat
Wing arms	Horizontal or vertical 30 mm noncorrosive tubular arm
Locking	Manual 2 key or electromagnetic motor lock
Sealing between glass and aluminum	With EPDM cord
Sealing between wing and fixed part	With horse hair brush
Radar	Microwave qty: 2
Speed control	Standard
Impaired in health pass	Standard
Hand safety pneumatics	In enter and exit on the right qty: 1 for each
Ankle safety pneumatics+	In all wings at bottom hems
Position sensors	Standard
Winter mode	Standard
Night mode	Standard
Nonstop mode	Standard
